## SKILLS

- Critical Thinking
- Technical Requirement Analysis
- Self learner
- Fast learner

## LANGUAGES

- English (Advanced)
- French (Basics)

## PROFILE

I am a graduate of Electrical Engineering and Computer Science faculty of Transilvania University of Brasov, specialising in Automation and Applied Informatics.

## SPECIALISED PRACTICE

- ☐ IBM | Jul 2021
  - Android development - using Android Studio with Java
  - Git - version control tool
  - Technical requirements review and test case scripting

## FORMAL STUDIES

- ☐ **Transilvania University of Brasov**  
Electrical Engineering and Computer Science | Oct 2018 - Jul 2022
  - Automation and applied informatics
- ☐ **"Toma N. Socolescu" National College, Ploiesti**  
Mathematics - Informatics | Sep 2014 - Jul 2018

## PERSONAL PROJECTS

- Build an IoT system with Cloud connectivity - using Blynk.io sensors, microcontrollers and coding in Arduino. The implementation was used for a smart kitchen
- Full stack website portfolio - React JS, Tailwind CSS, Firebase, Github pages. The website includes several small projects that helped me practice coding and testing skills

## SELF STUDY AND COURSES

- PL/SQL - writing basic queries for DB interrogation
- Bash - basic commands
- Java (JDK 8) - OOP principles
- Javascript, DOM Manipulation, HTML, CSS
- React js, Tailwind CSS, Firebase
