- Java
- C++
- Javascript
- C#
- Firebase
- SQL/MySQL
- Microcontrollers
- Spring Framework

SOFT SKILLS

- Research
- Problem Solving
- Attention to details
- Fast Learner

LANGUAGE

- English
- French

GEORGIAN IULIAN TUDOR

Junior Web Developer

PERSONAL PROFILE

I am a graduate of the college of Electrical Engineering and Computer Science at Transilvania University of Brașov, specializing in Automation and applied informatics.

SPECIALIZED PRACTICE

IBM Company | Jul 2021 - Jul 2021

- Android development - using JAVA in Android Studio
- Basic knowledge of Git
- Theoretical knowledge of software development lifecycle methodologies: Agile and Waterfall

Transilvania University | Jul 2020 - Aug 2020

- Web development - using frameworks for development of web applications using Java and reactive programming elements, Spring Boot and React.

FORMAL STUDIES

Transilvania University of Brașov

Electrical Engineering and Computer Science | Oct 2018 - Jul 2022

- Automation and Applied Informatics

"Toma N. Socolescu" National College, Ploiești

Mathematics-Informatics | Sep 2014 - Jul 2018

PERSONAL PROJECTS

Building an IoT system with Cloud connectivity - using Blynk.io sensors, microcontrollers and coding in Arduino. I realised a smart kitchen with remote control of lights and automated control using a relay module acted on the basis of sensor values.

COURSES AND SELF LEARNING

Database Programming with PL/SQL

SQL | May 2018

- Basic shell scripting (Bash)
- Maven build tool
- Java (JDK 8), Spring Suite
- Advanced Javascript, DOM Manipulation, HTML, CSS
